Dear Internship Coordinator,

I am Divya Karippath, a Graduate student at San Jose State University. I am pursuing Master's degree in Computer Engineering, specializing in networking. I am interested in interning with Atmel Corporation for the position of 'Wireless Intern' for the summer Quarter, 2016. If given an opportunity, I would be excited to be an intern with your organization.

With my previous experience as a software engineer for 5 years, working with IT majors like Accenture Services Pvt. Ltd, Cognizant Technology Solutions and Infosys Ltd, I possess development knowledge in Java/J2EE – Spring, WCS. During this period, I have participated in different phases of the software life cycle including requirement analysis,   preparing design documents, coding and unit testing of assigned items.

 As part of my coursework in masters, I have developed a Student Portal and a DVD store ordering systems using Socket programming in C language. I also have gained knowledge in Penetration testing and cryptography with hands on lab experience. I also have a beginner's familiarity with Python wherein I am self-tutoring myself so as to learn these concepts to survive in the industry. I can assure you from my past experience that once I get an opportunity, I will learn it in no time.

I see your intern program as an excellent opportunity to work in a world class facility and to benefit from your latest cutting-edge technology systems. My inherent ability to strategize and adjust quickly to new environments and ideas enables me to consistently achieve success. I work efficiently and creatively both as an individual employee and as a team member, and I believe that these qualities will be essential to a Company's success.

I am confident that my experiences, skills and strong interests make me a strong candidate for your program. I have attached my resume and I look forward to discussing my qualifications with you. Thank you for your time and consideration.

Thanking You

Divya Karippath
